

Photographic Workshops

With so many people purchasing cameras and so many photographs being taken, I believe it is only fair that you get the very most from the investment that you have made.

As a multiple award winning, fully accredited member of the Australian Institute of Professional Photography, I would love the opportunity to share the photographic knowledge, experience, passion and enthusiasm I have with over 30 years of experience as a photographer, in the form of bespoke and individual photographic workshops based on a one-to-one concept.

Each workshop is tailored to your abilities and requirements with the objective of improving your photographic knowledge and techniques to enable you to capture those images that you have dreamt of for so long and having as much fun as possible along the way.

For absolute beginners the basics of camera operation and photography can be covered prior to moving onto the techniques and principles of capturing stunning landscape images.

As one-to-one training gives you my undivided attention it presents a perfect learning environment and extremely good value. However, if you prefer to bring someone else along to learn with, then that can also be arranged.

Workshops can be run at a location of your choice or for longer workshops, multiple locations. This is obviously dependent upon your requirements and sometimes, prevailing weather/tide conditions. Sunrise and/or sunsets can be incorporated as required. My workshops are based on the stunning NSW Central Coast, please check my Central Coast gallery for examples of the locations

Topics such as camera equipment, composition, exposure and the creative use of exposure with filters are covered. Basic image workflow and processing with Adobe Photoshop can also be covered if required.

So whether you want to simply get to know your camera better, improve your photography or take your photography as a whole to the next level then please contact me and we can discuss it further.

The investment for these great photographic workshops is as follows;

- One-to-one workshop \$50 per hour (minimum 2 hours).
- Additional participant/friend \$40 per hour each* (minimum 2 hours)
- Extended one-to-one workshop \$225 (minimum of 5 hours included)

**Additional participants can only be added at your request and in such instances the hourly rate drops to \$40 each. The minimum 2-hour workshop duration still applies.*

Unfortunately refreshments are not included in these costs.
